About:

Rubicon consistently stamps his foals with his wonderful temperament that makes training both pleasurable and uncomplicated. He has proven himself as an exceptional sire by earning his AWR permanent breeding license through his many offspring who received first premium premier or above status. Rubicon sired the 2015 West Coast USEA FEH third place yearling Rubicons Hero and we are very excited to see the eventing future this foal will have. Hero also was AWR awards program Champion FEH yearling for 2015 with a score of 78.19! Rubicon's first foal won top ten at the AHA Nationals Fall 2015.

Rubicon's foals will get you noticed with their beautiful color as he **ONLY sires Buckskin and Palominos!** He is DNA tested at UC Davis and will NOT produce a smoky black.

All of his foals have excellent bone and hooves, are well proportioned, and have beautiful necklines. Rubicon helps to free up the stride in every mare he's bred to and in turn his foals are lovely movers.

Rubicon was successfully shown dressage, with great scores. He received an "8" for his jumping ability at his stallion approvals and his correct jumping form carries through to his foals.

He crosses very well with larger sport ponies, his 2015 filly was site champion at her inspection! He has excellent conception rate, settling all but one mare in his entire breeding career on their first time! We have had several repeat breeders and all foal owners comment on how kind and easy their foals are to work with! Book now and get involved with the AWR awards program with your future foal!

Permanent Breeding License.

Stud fee:

Discounts for AWR/NASPR First Premium mares.

Breeding methods:

Artificial insemination
Transported cooled semen
