### **About:**

Add a little pony vigor to your breeding program. *Skyview's Triton* crosses well with Thoroughbreds, Warmbloods, or Ponies. AWR or NASPR.

*Triton's* foals tend to finish out closer to the size of the mare, adding substance when crossed with a more refined mare. His foals are built to last. They are athletic, hearty, kind, personable & easy to train.

*Triton* is a "Rocky" son. (Custushas Cashel Rock/ Connemara) with Proven Performance Temperament & Conformation Bloodline. He has many offspring out there doing their jobs well! All of his foals inspected to date have received 1st premium or above.

### **Breeding methods:**

Artificial insemination

### **Breeding goals:**

Hunter
